

PROGRESS OF THE G.T.P. WESTWARD

Will Reach Grand Prairie Creek by Feb. 1st—Athabasca Bridge Will be Large One

The last piece of timber on the bridge over Hardisty Creek was laid on Friday, said Leslie Zohrab to the Bulletin this morning. "Steel will be laid across today or tomorrow, allowing the railway to reach Prairie Creek by about the 1st of February. It has just reached the city on return from the Yellowhead.

Mr. Zohrab has formed a partnership with Messrs. Brewster and Moore, of Banff, who have for years been doing transporter and packing business in connection with C. P. R. tourist and building traffic.

The new company have purchased a large number of the steel beams which will be prepared to do packing for tourists, hunters, prospectors and surveyors, when once the steel bridge of the mountains is made accessible by the coming of the railroads in the course of the coming season.

Mr. Zohrab has come in from Hrus Lake in the Yellowhead pass, where he has established a post. As far as the Yellowhead Creek he has a pack horse, from where he got a construction train into Edmonton from Eden the regular train runs twice a week, brought him into Edmonton.

Prairie Creek is to be the end of steel on the G. T. P. in about two months, until the bridge is completed over the Athabasca. It is at present a large arena of forest, and the freighting for construction as far as the Yellowhead Creek is done by pack horse. Mr. Zohrab is erecting a store and stopping house at Prairie Creek, as well as a barracks for the G. T. P. W. M. P. The end of steel will be at mile 16, just before the bridge of the entrance to the park and forty-nine miles east of Pittsburgh the first division road of Eden. Through high level being eleven miles this side of the summit, where the railway enters British Columbia.

Steel To Tate Jeanne Cache. Asked as to when the steel would be laid to Tate Jeanne Cache on the Fraser River, Mr. Zohrab said:

"The grade is already completed almost to the crossing of the Athabasca at mile 46, but no steel can be laid beyond until the completion of the connection with Mr. Leckie's bridge. The river there is over a quarter of a mile wide and the bridge is to be longer than the Clover Bar bridge of the Grand Trunk Pacific. It is to be a steel bridge, and steel, so will be a substantial structure."

Freighting In Hand. Preflighting is proving a difficult proposition for Messrs. Zohrab, Vach and Stewart, as the frequent chinooks have prevented all the work of freighting being done on wheels. Beyond the summit, however, conditions are very different, the Chinooks do not displace seven feet deep into the weather moderate conditions, and freighting the mountains are entered.

New Police Recruits in Toronto. Toronto, Jan. 24.—Twenty recruits were added to the force of the Toronto police today and more will be taken on next week. The force of the Toronto police is so as to give the men one day of rest each week. Until recently, the recruitment had only one day of rest each week.

Amazing Growth is Shown by the Railways of Canada. More Than Four Thousand Miles are Now Under Construction—Of the Increase During the Past Year 218 Miles of the Total of 628 Miles Were in the Four Western Provinces—Aggregate Passenger Revenue During the Year Reached the Sum of Forty-six Million Dollars.

Toronto, Jan. 25.—The railway mileage of Canada was increased by 418 miles during the year 1920, says the Monetary Times. The increase 151.2 miles was in the four western provinces of Saskatchewan, Alberta, Manitoba, and British Columbia.

The 2,749.8 miles of railway reported as being in operation at the end of 1920 do not include a considerable mileage in actual operation but not yet reported as under construction. It might, in fact, be fairly assumed that 1500 miles of additional railway line really available throughout the Dominion although returned as technically unfinished.

4,600 Miles Completed. Mr. J. L. Payne, the contractor of railway stations, states, assuming that construction implies the active preparation of positive work towards a completed railway, it is estimated that about 1500 miles of railway were in the state of way on Jan. 20 last.

The public service of Canadian railways in 1919 was characterized by the carrying of 5,894,575 passengers and 2,452,666 tons of freight. As compared with 1918 these figures show an increase of 821,267 passengers and 7,459 tons of freight.

The number of passengers carried per mile of line was 199. Since 1917 there has been an increase in the number of passengers carried per mile of line, which has been increasing steadily, clearly that railway construction has proceeded more rapidly than

OPPOSE LOCAL OPTION CLAUSE

Hon. A. G. MacKay, Leader of Ontario Liberals, Will Divide House on Three Fifths Provision

Toronto, Jan. 25.—Hon. A. G. MacKay, leader of the opposition in the legislature, declares he will divide the house on the three-fifths clause of the local option provisions of the Ontario Liquor Act.

The Liberals apparently hope to see some supporters of the government vote with the opposition in this matter.

"When the three-fifths clause was introduced by Hon. W. J. Hanna it was opposed by Hon. B. L. Lucas who was not then in the cabinet. Since the admission of the cabinet, Hon. Lucas has been divided on the issue, although the question has been discussed."

During the discussion Hon. Mr. Lucas refrained from expressing his opinion. When it is taken again this session he will likely be heard from.

KILLED BY EXPLOSION. Was Repairing Gas Plant in His Home.

Galt, Jan. 24.—Loring Cowan, aged 24, son of Mr. and Mrs. Loring Cowan, of the Fraser road, was fatally injured yesterday in an explosion while working on a gas plant in his home. He was struck by a large pipe which exploded, and the machinery and accumulated this afternoon.

Summary of Recent Issues Shows Practically All of the Bonds of the Canadian Bond issued in the last year indicates how dependent the Dominion is on foreign capital.

New York, Jan. 25.—A summary of the Canadian Bond issued in the last year indicates how dependent the Dominion is on foreign capital. The position of its bonds. Of the total of \$121,050,000 eighty-one per cent. was sold in Great Britain, seventeen per cent. in Canada, and two per cent. in the United States.

One of the bondholders, a Canadian investor, has been asked to supply the information for the securities of the Dominion. The Dominion capital bond issued in this country, which is per cent. marked abroad. Of the yield of the higher grade municipal bonds, aggregate yield was 7.34 per cent. This year, Canada 5.7 per cent. and the United States one per cent.

Senator Lodge Will Oppose Reciprocity. If Arrangement is Such As To Admit Soft Fish From Western Canada.

Toronto, Jan. 24.—A special of the Telegram from Washington this morning says: Senator Henry Cabot Lodge, of the Senate Committee on foreign relations, has taken a strong position against the reciprocity agreement on the assumption that it admits soft fish from Canada free or practically free. He sent his son-in-law, Representative Gardner, to the White House yesterday to see how hard the change has been made in the fish duty.

SCHOOL TRUSTEES ARE IN SESSION

Annual Convention Opened This Morning at Watskewich—Southern Delegates Delayed

Watskewich, Jan. 25.—President Macdonald, of Inverness, opened the fifth annual convention of Alberta school trustees here today. He outlined the object of the association and emphasized the importance of a more technical education preparing the child for his life after in business or on the farm.

He urged for an increased expenditure on education by the government, suggesting the establishment of a demonstration consolidated school.

Delegates attended a visit to the kindergarten room and the president followed and remained in the appointment of a committee to deal with the new block in Southern Alberta.

Secretary Treasurer Reid read his annual report. A discussion followed and resulted in the appointment of a committee to deal with the new block in Southern Alberta.

SNOW DERAILS TWO C.N.R. TRAINS

Two C.N.R. Expresses on Line South of Saskatoon are Derailed by the Snowdrift

Saskatoon, Jan. 25.—C. N. R. Express No. 23 due here from the south at 1:45 yesterday afternoon, has not yet reached the city. It appears the train ran into a snow drift just south of Hensley. The engineer and mail car left the trucks.

After being cleared, the train ran into Hensley only to find that the southbound No. 16, that left here last night, also had struck the snowbank just north of the same town, and No. 25 is consequently held up there till No. 16 can get through.

The noon train for the south today has been cancelled, but it is thought the train due at 4:30 p.m. will leave on time. The main line trains are only slightly delayed, but a high wind and deep drifts are causing the railway company much trouble.

DEPUTATION OF INDIANS. Waits On The Deputy Minister At Ottawa, Jan. 24.—Deputy Minister of Indian Affairs today received a deputation of Crees from Saskatchewan, who arrived at Ottawa by rail.

In their picturesque garb, chiefs and councillors attracted considerable attention on the Hill. Fault was found with regard to the way certain matters were handled in the case of treaty lands have been divided up. The Crees were very anxious to be heard in this matter and were assured that the matters would be taken up by the federal government.

TWO BOYS DROWNED. Disregarded Warning Sailed on Thin Ice With a Fatal Result. Lunenburg, N. S. Jan. 25.—Two sons of a Mr. L. H. Brown, of Middlesex, were drowned last night while skating on the Lakeville river. They were warned that the ice was thin, but they disregarded the warning and skated out. They were swept away by the current. The bodies have not been recovered.

TODAY'S CUELING. The following are the names of the Provincial curling bonspiel results for today: 1st, Smith (Vancouver) 10; 2nd, 1st, Waters (Vancouver) 10; 3rd, 1st, Waters (Vancouver) 10; 4th, 1st, Waters (Vancouver) 10; ANNUAL MEETING BOARD OF TRADE

MEETING PRESIDENT MCGEORGE
AND SECRETARY FISHER RE-
VIEW YEARS WORK.

There was scarcely a ripple to disturb the optimism and good fellowship that marked the annual meeting of the Board of Trade 31st year, which was held yesterday afternoon. The meeting was held in the board room, where the members of the board met for the first time. Mr. McGeorge failed to make any remark, but the enthusiasm displayed for or against the decision may call will never cause an echo to be heard in legislative halls of the east. Instead of this, the board confined itself to reviewing a year of growth and expansion, in which its own officials, the press and the municipal authorities came in for the usual commendations. The meeting accepted the recommendations of the nominating committee and elected the members whose names were submitted by acclamation. Mr. F. M. Morgan being elected president for the year 1911.

The meeting was called to order shortly after four by President McGeorge. The minutes of the last annual meeting were read and accepted. The President's address.

Mr. McGeorge, the retiring president, then read his address to the Gentlemen. In reviewing the last twelve months, I think we have had a year with a great deal of satisfaction, as during the year just ended all the lines of business in the city of Edmonton, but over the whole of the city of Central and northern Alberta have shown an increase in volume which I feel must be exceedingly gratifying to all concerned. There is more encouraging still is the fact that in all reports to business men throughout the year, the business is on a firmer basis than at any previous time in the history.

Evidence of the advance of business during 1910 will be found in a comparative statement of the business of the previous year, which are as follows:

1905.	1910.
Customs receipts	\$269,558
Building permits	2,122,161
Bank clear.	2,161,324
Imports	51,611,018
Exports	71,623,115
Revenue	\$82,719

High Level Bridge. I feel sure that it must be gratifying to our citizens to note the completion of the High Level Bridge between this and the sister city of Strathcona, by the Canadian Pacific Railway Company. This will greatly increase the facilities for handling freight and passenger traffic both in and out of Edmonton. I am glad to note our city council has appointed a committee, on which the board is represented, for the purpose of entering into negotiations with the city of Strathcona for a union of the two municipalities, and that by the time the bridge is completed, their negotiations will result in a satisfactory conclusion, and that the two cities will be one in reality as well as in name. Development in the outlying districts have shown a marked increase over the year 1910. Nearly 4,000 homestead entries having been made at the local land office during the year 1910. There has been a large movement of prosperous and experienced farmers on to the vacant lands in the older settlements. All these settlers will be producers of goods and thereby adding materially to the prosperity of Edmonton.

I regret to say the railway development so just anticipated by my predecessor in office, in his address last year, has not materialized. It is regrettable that the line from Strathcona to Camrose, so long promised, has not yet been commenced. The great disappointment to the city that seems to me to be of more importance to the city of Edmonton and surrounding country, is that the railway line projected and approved to connect the city of Edmonton with the River districts are not yet commenced with every evidence of the former year has been abandoned for the present. These lines if constructed would mean a vast amount of value as during the year, the railway line to Edmonton, and upon which the early development of the city has been based, has been abandoned for the present. A charter is being applied for to build the line from Edmonton to the River districts, which is the natural outlet for the Athabasca country to Port McMurray. It is this line is built and the line is completed, the city of Edmonton, all the traffic originating in this city would be diverted through the Province of Saskatchewan instead of through Alberta, which is the natural outlet for this trade.

James Business Conditions. Every effort of the board during the year has been made to improve the business conditions of the city. The most important matters accomplished, may be mentioned as follows: The board of railway commissioners, asking for such revision of through rates as would remove the existing discrimination of rates in this connection. It will be remembered the Edmonton board was only presented by Mr. Post, and the board has since been notified that the board has been notified that the board of railway commissioners which virtually considers the contentions of the board of railway commissioners, the most important decisions which have been given.

Regarding traffic matter, it is very far reaching in its effects, and Edmonton is greatly benefited by the measure. It will be noticed that the board of railway commissioners, the most important decisions which have been given.

The Bulk Sales Act. Another matter dealt with by your board, was the Bulk Sales Act. A committee was appointed by the board of railway commissioners, and the board has since been notified that the board has been notified that the board of railway commissioners which virtually considers the contentions of the board of railway commissioners, the most important decisions which have been given.

Navigation of Saskatchewan. The board has also been notified that the board has been notified that the board of railway commissioners which virtually considers the contentions of the board of railway commissioners, the most important decisions which have been given.

The board has also been notified that the board has been notified that the board of railway commissioners which virtually considers the contentions of the board of railway commissioners, the most important decisions which have been given.

The board has also been notified that the board has been notified that the board of railway commissioners which virtually considers the contentions of the board of railway commissioners, the most important decisions which have been given.

The board has also been notified that the board has been notified that the board of railway commissioners which virtually considers the contentions of the board of railway commissioners, the most important decisions which have been given.

The board has also been notified that the board has been notified that the board of railway commissioners which virtually considers the contentions of the board of railway commissioners, the most important decisions which have been given.

ation of such a league. This business men's trip, however, has not been given up, as our secretary has again brought the matter to the attention of railway companies with a view to arranging for cars for the coming season. I strongly urge upon the board the importance of carrying out Mr. Fraser's idea, as I feel confident a great benefit will accrue not only to Edmonton but to the whole of Central Alberta.

Union Stock Yards. Another matter discussed by your board, was the establishment of union stock yards at some point near the city, which is the subject of the party interested. I notice the city council and the Exhibition Association have appointed committees to consider this matter, and I hope their labors may be crowned with success.

I wish to congratulate the board upon the more commodious and more central quarters we have obtained to hold our meetings in. We must all feel the rooms we occupy have been a great improvement and convenience to us. I also wish to congratulate the board upon the success which has attended the holding of the annual meeting at the Hotel prior to their meeting. The holding of the annual meeting at 123 has greatly increased the number of visitors to the city, and the most interest has been taken in the matter of the annual meeting.

In conclusion, I wish to thank the management of the local newspapers for the hearty and valuable support they have given to the board during the year. I wish also to thank the officers and members of the board for their assistance in the discharge of the duties devolving upon me during my term of office as president. I also wish to thank the mayor and aldermen of the city of Edmonton for their support of the board, for the generous assistance they have given to the board.

JAMES MCGEORGE, President Edmonton Board of Trade.

This was followed by the report of the secretary, which gave a rather detailed account of the activities of the board during the year. The secretary also reported on the meeting of the board and its branches, and on the work accomplished by the board during the year. Building Bylaw Enforcement.

The matter of enforcement of the building bylaws within the fire limits was taken up by the Board, and brought to the attention of the City Council.

In the absence of any public assistance in Edmonton, the Board was made whereby the University of Alberta will undertake this work for prospectors and others.

In the matter of improvements to the Athabasca Landing wagon road, a number of the Northern members of the Legislature were interested in this, and their promise of support obtained.

Bulk Sales Act. The necessity for legislation somewhat along the lines of that in effect in British Columbia and Manitoba, was strongly urged upon the Provincial Government, but it was not found practicable to set the desired legislation introduced at the end of 1910.

Railway Facilities Northward. The necessity for railway communication northward into the Athabasca River country received a great deal of attention at the hands of the Board and the matter was brought to the attention of the City Council.

Domestic Land Office Site. The matter of a new site for the office of Domestic Land was taken up by the Board, and brought to the attention of the City Council.

Voters Disqualified. Likely Three Thousand Voters Will Be Disqualified in the Canadian Constituency.

Denville, Ill., Jan. 25. — That the voters of the Canadian constituency in the civic fire investigation today included a statement by Chief Buchanan of the fire brigade, that the pressure of the high power station in the business section was being maintained by the fire brigade, of 100 pounds, as the regulations demand. The chief also said that the fire brigade had destroyed the warehouse of the Martin-Role-Wynne Co. in one season. The regiment of the fire brigade had been in the training camp.
